Now, sir, I can cettly to the above as being true, for! have followed the sea f r over forty years, most of the time doling business with the West Influe. These sime Bitters, differently put up and named, were brought to my notice on my first trip to the Island of St. Crols for a carge of run, and for verars and years after my ship's stores were never without them. I always supplied my family and many of my neighbors with them, and can truly say a better Bitters and Tousic is not made in all the world.

Yours, truly.

A mere wanton murder than that committed in New York, last Thursday, we have not often recorded. The victim was Charles M. [From the Anti-Stavery Standard.]
The New York journals are wasting a great deal of excellent indignation on Mr. Pisk for the course he took in the matter of Bowles, of the Springfield Republican. When we remember the abuse and insolence lavished by Mr. Bowles, from his coward's castle, on every true man for the last ten years, we think such an offender has nothing to complain of. He has only been paid in his own coin. The combatants seem about equally matched, though, to be such Mr. Bowles had recalled George Thomson's faithful dealing with him, when that gentleman and his friends were mobbed in Springfield seventeen years ago, and the scores of times since that he has done his utmost to poison the mind of Western Massachusetts against the best men in the State, he might have used his price nothers. The short how were with the server more and than whingering.

A communication from Phillip Tomppert, Jr., clerk of the City Court, was read. He laforms the Board that the sherff has now in his hands an execution against him (Tomppert) for five hundred collars, (2000), as trustee of the jury fund, which amount he has paid over to the secretary of the School Board, and request that a commistiee be appointed to investigate the matter. On motion it was referred to the Finance Committee, with Mr. Lucas added.

After some further unimportant business the Board adjourned to the first Monday ovening in February.

AMUSEMENTS.

The City Court and its Marshals. ed ceptity, Pat. Dillon, were resierday morning, according to law, duly sworn into the nunicipal. State and United States service, and entered upon their duties in the City Court, relieving Marshal Alex, Gilmore, and Deputy Marshals Abe Akers and Edward B. Harding.

The restiring Marshals have, during their term, served the city faithfully and with credit to them selves, and this is all that could be said of the best of officers. The reporters will not soon forget the many little kindnesses received at the hands of Deputy Marshal Harding, one of the few men who "knows what news is," and to whose courtesy they have been indebted for many a stray litem which might have been lost to them in the confusion and disorder at times incident to the morning proceedings of a Police Court.

The newly qualified officers of the City Court are both men who widerstand their duties, and will, we doubt not, all their places as creditably as their predecessors.

Deputy Marshal Dillon yesierlay sent to the Board of Police Commissioners the following as his resignation of the position he has held on the detective force:

To the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: GENTLEMEN Having accepted the position of the best of the Honorable Board of Police Commissioners: Commissioners and the policy of the Honorable Board of Police Commissioners of the Honorable Board of Police Commissioners of the Honorable Board of Police Commissioners of the Honorable B

Street Car Travel on Pertland Avenue.

The New Albany Ledger has the following dubtions picture of street oar trayel in Louisville: A gentleman who went to Louisville Saturday relates his experience on the cars as follows: Resching the other side of the river in due time I got into an old oar along with half a dozen other passengers. Before reaching the avenue, several of the passengers were nodding, our here being one of the passengers were nodding, our here being one of the names per seven to ding, our here being one of the names are to the passengers hastily tambling out at the rear end of the vehicle into the mod. It seems that an iron wagon going up the avenue, while crossing the avenue at that point became uncoupled, and before the approaching car could be stopped the iron rails stove in the forward end of the ear, slightly injuring the driver, who, however, made a narrow escape from death, and caused the burried exit of the passengers as above described.

After tramping around in the mud for some time another car came atong, and our hero and the other passengers got into the little dreaming that another accident would happen. Up near Bridge street, however, the driver run afoul of a dray, the tail pieces penetrating the side, making the passengers stampeds again, and throwing the car four feet from the track. Fortunately, no one was first by the last accident, but our here moght street car travel rather dubtous in Louisville.

[From the Anti-Slavery Randard.]

The New York journals are wasting a great deal of excellent indignation on Mr. Plak for the course he took in the matter of Bayles, of the Springfield Republican. When we remember the abuse and insolence lavished by Mr. Bowles, from his coward's eastle, on every true man for the last ten years, we think such an offender has nothing to complain of. He has only been paid in his own coin. The combatants seem about equally matched though, to be sure, Mr. Fisk, a new beginner, cannot expect fully to equally matched though, to be sure, Mr. Fisk, a new beginner, cannot expect fully to equally matched though, to be sure, Mr. Fisk, a new beginner, cannot expect fully to equally matched in Springfield seventeen years ago, and the correst of times and the fixends were mobbed in Springfield seventeen years ago, and the scores of times since that he has done his utmost to poison the mind of Western Massachusetts against the best men in the State, he might have used his prison hours in profitable, if penitential, meditations—a much better employment than whimpering.

The Springfield Republican, like the Boston Advertiser, has belonged, in times past, to a class of powernal unropoularity made on man, and sometimes profitable, to abuse them. For once it has miscalculated.
